Hiring Manager

JPMorgan Chase

Dear Hiring Manager,

I am excited to apply for the **Software Engineer II** position in the Consumer and Community Banking division at JPMorgan Chase. With over 3 years of experience in full-stack development, particularly focusing on **JavaScript, Go, React.js**, and **modern web technologies**, I am eager to contribute to the development of secure, scalable, and innovative technology solutions that enhance the user experience.

In my current role at Axeno, I collaborate closely with designers, analytics partners, and backend developers to deliver seamless, responsive web applications. My proficiency in **React.js, HTML, CSS**, and testing frameworks has enabled me to create reusable components and optimize applications for performance across a variety of devices and browsers. Additionally, my hands-on experience with **TypeScript, Node.js**, and **SQL databases** has strengthened my ability to develop and troubleshoot end-to-end software solutions in dynamic and agile environments.

Highlights of my qualifications include:

- **Proficiency in modern front-end development:** Developed and maintained user interfaces with React.js, adhering to UI best practices and ensuring optimal performance.
- **Backend integration expertise:** Assisted in the seamless integration of RESTful APIs and services, emphasizing security and operational stability.
- **Problem-solving with data insights:** Applied analytical skills to identify hidden patterns in data, driving improvements in system architecture and coding hygiene.
- **Experience in Agile methodologies:** Contributed to iterative development cycles, enabling timely delivery of high-quality solutions.

I am confident that my technical expertise, my dedication to continuous learning and improvement, aligns well with the requirements of this role.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experiences align with the goals of your team. Please feel free to contact me at **sharmadeepak731998@gmail.com** or **+91 9540788379** to schedule a conversation.

Sincerely,

Deepak Sharma
