SUMMARY

A skilled and motivated Full Stack Developer with 2 year of experience in React, NodeJs with TypeScript, and SQL. Committed to delivering high-quality results and working collaboratively in a friendly and dynamic environment.

EXPERIENCE

Software Engineer L2

Axeno Consulting Private Limited

📅 2022 - Present 📍 Greater Noida, India

As a Software Engineer at Axeno, I specialize in frontend development, concentrating on building scalable user interfaces with React and TypeScript. Moreover, I contribute to backend infrastructure using Node.js, improving both security and performance.

- Crafted a form theme builder with React, Redux, Material-UI, and REST API integration, enhancing form customization efficiency by 40%.
- Designed an analytical dashboard for the application, offering comprehensive insights into user behavior and app performance. Employed advanced data visualization techniques for effective presentation of key metrics.
- Developed a website utilizing the modern React framework, Next.js, achieving impressive performance with a 93% score in the Lighthouse report. Implemented full SEO optimization, achieving a perfect score of 100%, thereby enhancing visibility and reach.

Frontend Developer Intern

WorkIndia

📅 08/2021 - 12/2021 📍 Bangalore , India

Joined as a React Developer Intern, actively contributed to successfully implementing numerous features and resolving bugs within the project. Demonstrated proficiency in React and problem-solving, enhancing the overall functionality and user experience of the applications.

- Implemented an upsell strategy in the job posting process, resulting in a 25% increase in subscription upgrades. Users are redirected to a subscription page with plan options and upsell offers, enhancing the user journey.
- Improved card detail page UI, boosting user engagement by 20%. The redesign prioritizes clarity and navigation ease, ensuring a more user-friendly experience.
- Created a job card activation feature, empowering users to efficiently manage job postings. This enhancement resulted in a 30% increase in user satisfaction and posting management efficiency.

PERSONAL PROJECTS

Insta Pay

- Developed a E-wallet clone project utilizing Next.js and Shadcn UI for frontend development.
- Implemented user authentication using clerk provider.
- Utilized Next.js' new Server Action feature to implement CRUD operations for data management.
- Encompassing various features such as fund addition, wallet-to-wallet transfers, and transaction dashboards, the platform offers a comprehensive financial management solution.
- Hosted Url : <https://insta-pay-wallet.vercel.app/sign-in>

Personal Portfolio

- Crafted a sleek and minimalist portfolio website with Reactjs & Next.js, Framer Motion, and Shadcn UI, showcasing creativity and technical skills. Incorporated smooth animations and user-friendly interface design to enhance engagement. Additionally, implemented responsive layouts for seamless viewing across devices.
- Hosted Url : <https://dev-ashish.vercel.app/>

EDUCATION

Bachelor in Computer Science

Lovely Professional University

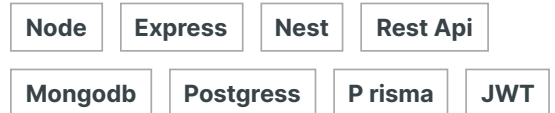

📅 2018 - 2022 📍 Jalandhar , Punjab

SKILLS

Frontend

Backend

Others

STRENGTHS

⚡ Problem-solving skills

Solved complex coding problems using React and Typescript resulting in faster application performance.

🧠 Team player

Collaborated with cross-functional teams to develop and deliver high-quality products.

🚩 Attention to detail

Implemented stringent testing and review protocols, coupled with knowledge of the best coding practices and documentation, to guarantee code precision and quality.

ACHIEVEMENTS

🏆 Leading a cross-functional team

Successfully led a team of developers to deliver a complex web application on time.

🚩 Intern Mentorship

Mentored an intern in web development, providing comprehensive training in frontend (HTML , CSS , JavaScript and React)
