Full Stack Developer with over 3 years of experience in JavaScript, React, Next.js, Node.js, and Go. Skilled in designing and delivering high-quality, scalable customer-facing products and robust internal platforms. Committed to building efficient solutions in collaborative environments.

EXPERIENCE

Software Engineer L2

April 2022 - Present

Axeno Consulting Pvt. Ltd. - Noida, UP, India

- Led a frontend team of 4 developers to deliver a high-quality user interface for [Swiftex](#), a low-code/no-code platform. Managed cross-team communication to ensure seamless collaboration between frontend, backend.
- Designed a Form Builder using React, Redux, Material-UI, and REST API integration, improving form customization efficiency by 85% and streamlining user workflows. Build an in-house workflow system for connecting Forms.
- Engineered a highly customizable Form Builder featuring custom input components, configurable settings, nested drag-and-drop functionality, and theming options. Reduced form creation time by 67% through intuitive features.
- Configured caching and throttling for APIs which increases the speed by 20% and Architected database schemas.
- Implemented full SEO optimization on Nextjs app, achieving performance with a 93% score in the Lighthouse report.
- Crafted animated custom paged using Strapi CMS, Rolled out SSR, SSG on [Axeno Site](#) to increase load time by 35%.
- Created Oauth, OTP based authentication service with Redis. Integrated PostgreSQL database with ORM Prisma.
- Developed backend for Infosys-Instep, integrating swagger docs, role based authentication and authorization in Go, Nodejs.

Frontend Developer

May 2021 - January 2022

Three Arrow Technologies - Vadodara, Gujarat, India

- Contributed to the successful implementation of 20+ features and resolved 10+ critical bugs within the project, improving application stability.
- Demonstrated proficiency in **Angular, React, and JavaScript**, resulting in a 15% enhancement in functionality, user experience.
- Revamped an analytical dashboard for the application, offering comprehensive insights into user behaviour and app performance by 33%. Ensured cross-browser compatibility and consistent user interface.
- Resolved over 100 bugs in both development and production environments through effective debugging and troubleshooting.
- Collaborated with other product teams on integrations, testing, and deployments.
- Integrated payment gateway for users across different models. Produced complex reusable interactive components.

PROJECTS

Personal Portfolio (with Blog App) - deepsh.vercel.app

- Developed a sleek, minimalist portfolio website using React, Next.js, Framer Motion, and Shadcn UI, resulting in a 40% improvement in site load time and enhanced user engagement.
- Enforced Nextjs MDX feature for blog rendering with custom components and code blocks increasing productivity by 90%.
- Expanded backend using GO to return the HTML views, unified with OAuth (Google login/sign in) Technology used: HTMX, GO, Tailwind, Templ, PostgreSQL. Uses the HTMX approach SPA for server side rendering.

Alter API - practice-firebase-fb1be.web.app/home

- Created an app based on API development. Platform where users can build, test, document and collaborate with teams.
- Implemented automated manual tests and communicated the expected behaviour of an API by simulating endpoints. Invite the team members having the collaborative session.
- Generated API documentation directly from saved endpoints and responses, reducing manual effort by 50%. *Tech used:* Angular, Typescript, Nodejs, Firebase, MongoDB

SKILLS

Frontend: JavaScript, TypeScript, CSS3, HTML5, React, Nextjs, AEM, Angular, JQuery, Jest, Redux, SASS, Tailwind, MUI.

Backend: Go, NodeJS, NestJS, Rest API, MongoDB, OAuth, Postgresql, MySQL, Firebase. ORMs Prisma.

Other: Git, Github, Agile, Docker, Redis.

EDUCATION

Master of Computer Applications

May 2019 - May 2022

B.P.I.B.S. College Delhi, IP University

B.Sc (Hons) Computer Science

June 2016 - May 2019

Delhi University , New Delhi

ACHIEVEMENTS

Leading a cross-functional team

Successfully led a team of developers to deliver a complex web application.

The Front Runner Award

Received an award for excellent performance and was praised for efficient client communication.

Intern Mentorship

Guided an intern in web development, delivering in-depth training on frontend technologies such as HTML, CSS, JavaScript, and React.
