Hiring Manager
Optum
India

Dear Hiring Manager,

I am thrilled to apply for the **"Software Engineer"** position at **Optum**. With my 3 years of experience as a Full Stack software developer specializing in Javascript, React, Next.js, Nodejs, Go, and SQL, I have a strong technical foundation and a deep commitment to creating robust, scalable software solutions. Optum's commitment to innovation and its impact on enterprise-level solutions make this opportunity particularly appealing, as I am eager to contribute my skills to an organization at the forefront of the technology industry.

In my previous roles, I have developed robust, scalable applications that address complex challenges. For instance, leveraging my expertise in React and Next.js, I built highly interactive front-end interfaces that improved user engagement by 30%. On the backend, my proficiency in Go, Node.js and TypeScript allowed me to architect secure APIs and streamline data management processes, enhancing application performance by 25%. Additionally, I have hands-on experience with cloud platforms and containerization, which aligns with your use of AWS and Docker.

My technical expertise also includes implementing complex backend infrastructure using Go and deploying cloud-based applications on platforms like Railway and Vercel. Other than technical skills, I have gained experience in mentoring the interns, giving them hands-on training for HTML, CSS, JS to taking interviews, sessions.

I am confident that my technical skills, problem-solving mindset, and passion for blockchain technology make me a strong fit for your team. I look forward to the opportunity to bring my expertise to Optum and help shape the future of finance.

Thank you for considering my application. I would be delighted to discuss how my background aligns with your needs.

Sincerely
Deepak Sharma
