EXPERIENCE

Software Engineer L2
Axeno Consulting Private Limited
📅 04/2022   📍 Greater Noida, India

- I specialize in frontend development, concentrating on building scalable user interfaces Nextjs. Contribute to backend infrastructure using Node.js, improving both security and performance
- Crafted a Form Builder with React, Redux, Material-UI, and REST API integration, enhancing form customization efficiency by 40%
- Designed and implemented database schemas, including table creation, column definition, and indexing, to enhance backend application performance in SQL
- Developed a 90% optimized nested drag-n-drop feature in React and Integrated many open-source libraries into different projects.
- Implemented caching and throttling for APIs which increases the speed by 20%
- Developed a website utilizing the modern React framework, Next.js, achieving impressive performance with a 93% score in the Lighthouse report

Frontend Developer Intern
Three Arrow Technologies
📅 05/2021 - 10/2021   📍 Vadodara, Gujarat, India

- Developed complex reusable interactive components as an Angular developer. Actively contributed to successfully implementing numerous features and resolving bugs within the project
- Designed an analytical dashboard for the application, offering comprehensive insights into user behavior and app performance
- Created OTP based service with Redis. Integrated PostgreSQL database with ORM Prisma.
- Ensured cross-browser compatibility and consistent user interface
- Resolved over 100 bugs in both development and production environments through effective debugging and troubleshooting
- Collaborated with other product teams on integrations, testing, and deployments
- Integrated payment gateway for users across different models.

PROJECTS

Personal Portfolio (with Blog App)
🔗 https://dev-log.up.railway.app/

- https://deepsh.vercel.app/ - Live App
- App about journey of exploring, experiments, and problem-solving with the development logs.
- Crafted a sleek and minimalist portfolio website with Reactjs & Next.js, Framer Motion, and Shadcn UI. It uses MDX approach to render each blog, with custom components, code blocks.
- Uses the HTMX approach SPA for server side rendering, with custom components and code blocks.
- Uses GO for backend to return the dynamic HTML views, integrated with OAuth (Google login/signin)
- Tech used: HTMX, GO, Tailwind, Templ, PostgreSQL

Alter API
🔗 https://practice-firebase-fb1be.web.app/home

- The Application is based on API development
- Platform where users can build, test, document and collaborate with the team
- Invite team members for collaborative sessions
- Tech used: Angular, Typescript, Nodejs, Firebase, Mongodb

EDUCATION

Master of Computer Applications
B.P.I.B.S. College
📅 01/2019 - 01/2022   📍 Delhi, IP University

Bsc Hons Computer Science
Delhi University
📅 01/2016 - 01/2019   📍 New Delhi

SUMMARY

Proficient Full Stack Developer with 2.5 years of experience in latest technologies React, Node, Golang. Dedicated to delivering high-quality solutions and excelling in collaborative, dynamic environments.

SKILLS

Frontend
AEM | React | Angular | CSS3 | HTML5 | JS | Jest | Nextjs | Redux | SASS | Tailwind | Typescript | MUI

Backend
Firebase | MongoDB | NestJS | NodeJS | OAuth | Postgresql | Rest API | Docker

Other
Git | Github | Agile | Docker | Redis

STRENGTHS

Problem-solving skills
Solved complex coding problems using React resulting in faster application performance.

Team player
Collaborated with cross-functional and external teams to develop, deliver high-quality products.

Attention to detail
Implemented stringent testing and review protocols, coupled with knowledge of the best coding practices and documentation, to guarantee code precision and quality.

ACHIEVEMENTS

Leading a cross-functional team
Successfully led a team of developers to deliver a complex web application.

Intern Mentorship
Mentored an intern in web development, providing comprehensive training on frontend (HTML , CSS , JavaScript and React)
