Hiring Manager
Seldon

Dear Hiring Manager,

I am excited to apply for the **Software Engineer - Golang Developer** position inSeldon. With over 3 years of experience in full-stack development, particularly focusing on **Go, Nodejs, Typescript** and **modern web technologies**, I am eager to contribute to the development of Seldon Core v2 and help shape the future of MLOps.

Key Highlights of My Expertise:

- I have extensive experience building robust, high-performance backend systems using Go, focusing on scalability, reliability, and maintainability.
- Developed RESTful APIs with robust authentication mechanisms like OAuth and OTP, RBAC and database schema.
- Successfully led cross-functional teams and mentored interns in web development technologies.
- Recognized with the Front Runner Award for outstanding performance and client communication.
- I am committed to maintaining high-quality codebases by implementing automated testing, continuous integration practices, and periodic dependency upgrades to ensure long-term reliability.

I am enthusiastic about the possibility of bringing my skills and experience to Seldon's innovative team. Thank you for considering my application.

Looking forward to the opportunity to connect.

Best regards,

Deepak Sharma
